PROJECTS

1. PENNY-PINCHER:

Web application created using React with Firebase Authentication. Simple app that allows user to track and categorize expense.

Used technology:

- React.js
- CSS 3 (BEM, Flexbox, basic RWD),
- React-Bootstrap 4,
- Firebase Cloud Firestore,
- React Router,
- Context API

Source code is available at: <https://github.com/dryadalis/Penny-pincher>

2. FLASHCARDS WEB APP:

Single page flashcard web app, each card presents a question and two answers. Choosing invalid answer move card to the end of the deck. Adding valid answer to all question user can see how many times he answered the question incorrectly.

Used technology:

- JavaScript (ES6),
- HTML5,
- CSS 3 (BEM, animations, basic RWD),
- Fetching data using "fetch".

Source code is available at: <https://github.com/dryadalis/Flashcards-webapp>

3. WEBDEV CHALLENGE :

Website inspired by Weekly WebDev Challenge. Some of the features include: Smooth Scrolling, Scrollspy and Sticky Navigation Bar.

Used technology:

- JavaScript,
- HTML5,
- CSS3 (BEM, Flexbox, basic RWD),
- Bootstrap 4.

Source code is available at : <https://github.com/dryadalis/WebDev-Challenge-2>
